In order to upload photos to the site, you must have an account. 1. Login to your account and click on the Rate Boobs link. 2. On the main rating page you will see a new menu item called Submit Picture:

3. Click on Submit Picture. Locate the image you want to upload and click the upload image button.

A few points to remember when submitting pictures: 1. Only pictures of ladies will be accepted, sorry guys. 2. All pictures are reviewed before they are posted to the site. 3. If a picture is suspected of being fake or stolen, you may be asked to provide a verification photo that proves you are the person in the photo. Enjoy and happy uploading!
